Hi Maria,

Please provide a link to the meeting as I want to attend the virtual meeting.

Also, the board chairman or president never responded to my request to deliver public comment which is a violation of their board rules: accept, deny, or limit. No response is not an option.

Again, I would like to observe the meeting today and need a link to do so.

We work with the largest and most sophisticated municipal, regional and federal governments. We want a good relationship with the Baltimore City Community College as well.

On this topic, I've previously addressed the Columbia School of Journalism and Harvard Law School.

Here is an outline of my comments.

TOPIC: Our Experience Submitting Maryland Public Records Act (MPIA) Requests To Baltimore City Community College (BCCC).

- A. Our Background: we are subject matter experts and a sophisticated filer of sunshine requests at the federal, state, and local level across America. For example, in 2022, we filed 55,000 open records requests with nearly every single substantial public body in the country and captured virtually all public spending at every level of government for the first time in history. We are a non-partisan, non-profit organization.
- B. Our BCCC MPIA Requests
- C. The Production
- D. The Follow Up
- E. Proposed Solutions

Please let me know if you have any questions. I look forward to addressing the board on this foundational issue of transparency and the public good.
