REQUEST FOR OFFICIAL STATEMENT AND ON-THE-RECORD ANSWERS

Hi Emily,

Some follow up questions to Governor Kate Brown regarding state contractors and their political donations to statewide Oregon office holders: 1. specifically, what is the governor's public position on the attorney general taking tens of thousands of dollars in campaign donations from law firms who hold, initiate, modify or amend contracts with the Department of Justice?; 2. Is the governor thinking about returning her own campaign donations from state vendors who hold, initiate, modify or amend contracts with Oregon state government?

If the answer to question #2 is no, then please make a public policy argument as to why the governor feels justified in fundraising from state contractors.

I am doing a follow-up editorial for Oregon newspapers or national media regarding Oregon's current policy allowing state contractors to give campaign donations to statewide office holders. The governors input and perspective is much appreciated.

Thank you.

Adam
