# INTRODUCTION

On January 25, 2017, President Donald J. Trump *issued Executive Order: Enhancing Public Safety in the Interior of the United States*. The order denies federal funding to sanctuary cities who choose not to comply with federal laws regarding deportation of illegal entrants.

Reaction to the new policy from across the political spectrum was immediate. However, the politicians, pundits and journalists admitted that the total amount of federal funding was undetermined.

This report - *Federal Funding of America's Sanctuary Cities* - quantified federal funding (FY2016) to the agencies and entities of America's 106 Sanctuary Cities.

**Conclusion: We sourced nearly \$27 billion to Sanctuary Cities in federal grants and direct payments.**

## BACKGROUND

### DEFINITION OF SANCTUARY CITY

There is no definitive definition of a 'sanctuary city,' per se. However, the U.S. Department of Justice (DOJ) operationally **enforces** a legal definition. Under Federal Law 8 U.S.C. Section 1373, the DOJ defines sanctuary cities as a local government entity not reporting to federal authorities: 'aliens in custody.'

## SCOPE

### AMERICA'S SANCTUARY CITIES

According to a May 31, 2016 Department of Justice **memo** and studies from non-governmental organizations, there are nearly 300 government jurisdictions of states, counties, cities and other governments claiming status. Sources: Ohio Jobs and Justice PAC, **link**.

Our OpenTheBooks.com oversight report quantified only the cities. Therefore, the scope of our project narrowed to 106 American cities. A total population of 46.09 million, according to 2015 latest available U.S. Census data, lives within these sanctuary cities.

# SANCTUARY CITIES

There are approximately 11 million illegal entrants residing within the United States. Twenty-percent of them live in just twelve American cities - 2.2 million of the total 11 million illegal entrant population.

Therefore, our report quantified the federal taxpayer dollars into all 106 sanctuary cities and breaks-out the twelve cities where 1 in 5 illegal entrants reside.

## TOP 10 TAKEAWAYS FROM OUR REPORT

**“Mayors defending their sanctuary city status by refusing to comply with federal law are essentially imposing a defiance tax on local residents. On average, this tax amounts to \$500 per man, woman and child. Major cities like Washington, D.C., New York and Chicago have the most to lose, and nearly \$27 billion is at stake across the country.”**  
– Adam Andrzejewski, CEO of OpenTheBooks.com

**1. \$26.741 billion in annual federal grants and direct payments flowed into America’s 106 sanctuary cities (FY2016).**

**2. On average, the cost of lost federal funding for a family of four residing in one of the 106 sanctuary cities is \$1,810 – or \$454 per person.** A total population of 46.2 million residents live in the 106 sanctuary cities according to census data.

**3. Washington, D.C. and Chicago, Illinois residents received the highest amount of federal funding on a per capita basis and, therefore, have the most to lose by maintaining their sanctuary status.**

Washington, D.C. municipal government received the highest amount of federal funding on a per capita basis: \$3,228 per person; \$12,912 per family of four; or \$2.09 billion total.

The City of Chicago, IL received the second highest amount of federal funding on a per capita basis: \$1,942 per person; \$7,768 per family of four; or \$5.3 billion total.

**4. In cities with populations of 100,000 and above, the communities with the least per capita federal dollars ‘at risk’ are St. Paul, Minnesota (\$47 per person, \$14.2 million total); Downey, California (\$36 per person, \$4.2 million total) and Miami, Florida (\$67 per person, \$29.7 million total).**

**5. \$15.983 billion in federal funds flowed into just twelve major American cities - where 1 in 5 illegal entrants reside (FY2016).**

**6. Department of Justice grants to law enforcement – i.e. city police departments – totaled \$543.97 million (FY2016).** Typically, this funding was only a small percentage of the local law enforcement budgets.

**7. \$4.23 billion in federal funding of the 106 sanctuary cities flowed via the 'direct payment' type.** These payments funded municipal services such as housing, education, community development, and schools.

**8. \$21.5 billion in federal funding of the 106 sanctuary cities flowed via the 'grant' payment mechanism.** These payments funded local police and fire departments, schools, housing, and city services.

**9. In Los Angeles, fully 1 in 5 city residents (22-percent) are illegal entrants.** However, the amount of federal funding amounts to only \$126 per resident; \$504 per family of four; or \$502.5 million total.

**10. In Newark, New Jersey, 19-percent of city residents are undocumented entrants.** However, the amount of federal funding amounts to \$733 per resident; \$2,932 per family of four; or \$206.7 million.

FEDERAL FUNDING  
INTO AMERICA'S  
106 SANCTUARY CITIES:  
\$26.741 BILLION (FY2016)

# PART 1 – FEDERAL FUNDING INTO AMERICA'S 106 SANCTUARY CITIES: \$26.741 BILLION (FY2016)

**FEDERAL GRANTS:**  
**\$21.5 BILLION**

**FEDERAL DIRECT PAYMENTS:**  
**\$4.23 BILLION**

Our report quantifies the federal flow of funds into 106 sanctuary cities across America mapped above.

However, according to the Migration Policy Institute, 53-percent of all undocumented immigrants (5.9 million) are home to a 'sanctuary' city. The other 47-percent of all illegal entrants in the U.S. live outside of sanctuary city protections.

# CONCLUSION

## PRESIDENTIAL LEVERAGE ON SANCTUARY CITIES – POWER OF THE PURSE

- Direct and sub-grant funding of cities and their agencies of the 106 Sanctuary Cities sum to **\$26.741 billion** (FY2016).
- Department of Justice (DOJ) grants to law enforcement – i.e. city police departments: **\$543.97 million** (FY2016).

Ultimately, the United States Supreme Court might very well decide presidential constitutional power on the withholding of all federal funding of sanctuary cities. Here are two opposing legal opinions:

### Why Trump's Executive Order on Sanctuary Cities is Unconstitutional

Our OpenTheBooks.com oversight report quantified the federal flow of funds into 106 sanctuary cities – jurisdictions that have chosen not to comply with federal immigration laws. Our objective is to enhance public debate with the hard financial facts regarding federal taxpayer monies.

**A more fully informed debate can only help generate better public policy solutions.**

# ABOUT AMERICAN TRANSPARENCY:

## EVERY DIME. ONLINE. IN REAL TIME.

Our mission is to post online “every dime” taxed and spent by federal, state and local units of government across America. We use the latest in technology to display the spending, including the first-to-market mobile app – Open The Books - which hyper-localized all disclosed United States Government checkbook spending since 2000.

It's a very exciting time. Through our public charity at American Transparency (website: [www.OpenTheBooks.com](http://www.OpenTheBooks.com)), we've created the world's largest private repository of government spending. Our big data specialists have captured 3 billion individual public expenditures. We open the books on government spending and follow the money with adversarial audits.

## It's your money. It's time for a transparency revolution!

For the first time in America's history, the possibility exists to capture close to “every dime” taxed and spent from every unit of government – local, state, and federal. Once successful, citizens will not need a search warrant (or even file a Freedom of Information Act request) to simply track how government spends virtually all public money.

Knowledge is power. Our experience shows that aggressive financial transparency, when properly applied, is a powerful political force. Hard data on government spending empowers people, provokes media scrutiny and leads to Congressional oversight. New candidates challenge incumbents, whistle blowers are encouraged, and public debate fostered on a wide variety of state and federal issues.
